

alternative form or format, the Agency will not process the request further.

**§ 1206.701 Categories of requesters.**

There are four categories of FOIA requesters: Commercial use requesters; educational and noncommercial scientific institutions; representatives of the news media; and all other requesters. The Act prescribes specific levels of fees for each of these categories:

(a) Commercial use requesters. When NASA receives a request for documents appearing to be for commercial use, it will assess charges which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Requesters must reasonably describe the records sought. Moreover, in the case of such a request, NASA will not consider a request for waiver or reduction of fees based upon an assertion that disclosure would be in the public interest. Commercial use requesters are not entitled to 2 hours of free search time or to 100 free pages of reproduction of documents.

(b) Education and noncommercial scientific institution requesters. NASA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that the request being made is authorized by and under the auspices of a qualifying institution and that the records are not being sought for a commercial use, but are being sought in furtherance of scholarly (if the request is from an educational institution) or scientific (if the request is from a non-commercial scientific institution) research. Requesters must reasonably describe the records sought.

(c) Requesters who are representatives of the news media. NASA shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must demonstrate that he/she meets the criteria in § 1206.101(o) of this part, and his/her request must not be made for a commercial use. Requesters must reasonably describe the records sought.

(d) All other requesters. NASA shall charge requesters who do not fit into

any of the categories mentioned in this section, fees which recover the full direct reasonable cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first 2 hours of search time shall be furnished without charge. Moreover, requests from individuals for records about themselves located in NASA's systems of records will continue to be processed under the fee provisions of the Privacy Act of 1974, which permits fees only for reproduction. Requesters must reasonably describe the records sought.

**§ 1206.702 Waiver or reduction of fees.**

The burden is always on the requester to provide the evidence to qualify him/her for a fee waiver or reduction.

(a) NASA shall furnish documents without charge or at reduced charges in accordance with 5 U.S.C. 552(a)(4)(A)(iii), provided that:

(1) Disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and

(2) It is not primarily in the commercial interest of the requester.

(b) Where these two statutory requirements are satisfied, based upon information supplied by the requester or otherwise made known to NASA, the FOIA fee shall be waived or reduced. Where one or both of these requirements is not satisfied, a fee waiver or reduction is not warranted under the statute.

(c) In determining whether disclosure is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, the following considerations shall be applied:

(1) Whether the subject of the requested records concerns "the operations or activities of the government";

(2) Whether the disclosure is "likely to contribute" to an understanding of government operations or activities;

(3) Whether disclosure of the requested information will contribute to "public understanding"; and
